# Card sorting activity for Online Bidding System

Card sorting activity

Start here

## Welcome!

The goal of this activity is to sort the given cards into groups of similar items.

### Instructions

To start, click and drag any card from the top "Scrambled" section into the bottom "Groups" section. Keep dragging cards from the "Scrambled" section into the "Groups" section, sorting them into separate groups or piles.

You can create as many groups as you like, and each group can have as many cards as you'd like. Categorize all the cards.

Take as much or as little time as you need.

### Questions?

This activity will be moderated. To join the audio call with your moderator, click the headphones icon at the top of the page. The moderator will review the instructions and can help answer any questions as you complete the activity.
